

Christmas Sink Or Float Experiment For Kids

We are all about simple and cheap activities on this website. My kids love water play and experiments and this activity combines the two.

You can use any Christmas or festive items to see if it sink or float. The source includes a free printable to track the experiment.

What you'll need

- Candy canes
- Christmas bows
- Water
- Christmas ornaments
- Bin

Steps

1. Print the free printable if using
2. Gather all the festive items you want to experiment with
3. Fill a bin with water
4. Invite your kids to experiment and see which items sink or float

Kids will learn about:

Sensory
Colour Recognition
Cognition
